Quantum teleportation Wikipedia

January 18th, 2019 - Quantum teleportation is a process by which quantum information e g the exact state of an atom or photon can be transmitted exactly in principle from one location to another with the help of classical communication and previously shared quantum entanglement between the sending and receiving location Because it depends on classical communication which can proceed no faster than the

Vacuum Wikipedia

January 20th, 2019 - Vacuum is space devoid of matter The word stems from the Latin adjective vacuus for vacant or void An approximation to such vacuum is a region with a gaseous pressure much less than atmospheric pressure Physicists often discuss ideal test results that would occur in a perfect vacuum which they sometimes simply call vacuum or free space and use the term partial vacuum to refer to an
